

1. Which cranial nerve is responsible for accommodation of the eye?
  - A. Optic nerve (II)
  - B. Oculomotor nerve (III)
  - C. Trochlear nerve (IV)
  - D. Abducens nerve (VI)
2. Which prefix “brady-” in a term like bradycardia indicates:
3. Which ICD-10-CM code represents an HCC-eligible vascular condition?
  - A. I73.9 – Peripheral vascular disease, unspecified
  - B. I70.203 – Atherosclerosis of native arteries with intermittent claudication
  - C. R60.0 – Localized edema
  - D. Z86.79 – History of circulatory disease
4. The suffix “-plasty” in rhinoplasty indicates:
5. Which muscle is the primary elevator of the mandible during mastication?
  - A. Temporalis
  - B. Masseter
  - C. Medial pterygoid
  - D. Lateral pterygoid
6. CPT code PHQ screening not documented due to cognitive Impairment
7. CKD – Abbreviation
8. Which part of the nephron is impermeable to water?
  - A. Proximal convoluted tubule
  - B. Descending limb of loop of Henle
  - C. Ascending limb of loop of Henle
  - D. Collecting duct
9. Which artery supplies the head of the femur in adults?
  - A. Obturator artery
  - B. Femoral artery
  - C. Medial circumflex femoral artery
  - D. Lateral circumflex femoral artery
10. The suffix “-algia” in myalgia refers to:
11. Which anatomical structure separates the thoracic cavity from the abdominal cavity?
  - A. Peritoneum
  - B. Pleura
  - C. Diaphragm
  - D. Mediastinum
12. Which ICD-10-CM code maps to HCC for chronic kidney disease in 2026?
  - A. N18.1 – CKD stage 1
  - B. N18.3 – CKD stage 3
  - C. N18.9 – CKD unspecified
  - D. Z87.448 – Personal history of kidney disease
13. MIPS – Abbreviation
14. According to 2026 HCC guidelines, which documentation requirement is mandatory for a condition to be coded?
  - A. Condition listed in past medical history only
  - B. Condition documented by nursing staff
  - C. MEAT criteria (Monitored, Evaluated, Assessed, Treated)
  - D. Lab report without provider notes
15. Which diagnoses in Sample HCC Chart 1 are HCC reportable?
16. Which coder responsibility under 2026 HCC guidelines?
  - A. Assign diagnoses without provider documentation
  - B. Query providers for unclear or unsupported conditions
  - C. Code ruled-out diagnoses
17. RAF – Abbreviation
18. The suffix “-itis” in arthritis refers to:
19. Which chronic kidney disease ICD-10-CM code maps to an HCC in 2026?
  - A. N18.1 – CKD stage 1
  - B. N18.3 – CKD stage 3
  - C. N18.9 – CKD unspecified
  - D. Z87.448 – Personal history of kidney disease
20. Description for CPT code 0518 F represents
21. Which prefix “hyper-” in a medical term usually means:
22. Sample HCC Chart 5: What MEAT documentation supports coding Peripheral Vascular Disease?
23. Which heart condition ICD-10-CM code is HCC reportable in 2026?
  - A. I10 – Essential hypertension
  - B. I25.10 – Atherosclerotic heart disease without angina
  - C. I50.22 – Chronic systolic heart failure
  - D. R07.9 – Chest pain, unspecified
24. Bipolar disorder exclusion comes in which MIPS measure ?
25. What is the primary purpose of HCC coding under CMS guidelines (2026)?
  - A. To increase claim submission speed
  - B. To determine hospital accreditation
  - C. To calculate Risk Adjustment Factor (RAF) for reimbursement
  - D. To reduce denial rates
26. ICD – Abbreviation
27. Which ligament prevents posterior displacement of the tibia?
  - A. Anterior cruciate ligament
  - B. Posterior cruciate ligament
  - C. Medial collateral ligament
  - D. Lateral collateral ligament
28. The prefix “tachy-” in tachypnea means:

29. HCPCS – Abbreviation  
 30. Which diagnosis is MOST likely to map to an HCC category in 2026?  
 A. Acute upper respiratory infection  
 B. Essential hypertension without complications  
 C. Diabetes with chronic kidney disease  
 D. Seasonal allergic rhinitis
31. QPP – Abbreviation  
 32. Which part of the nephron is impermeable to water?  
 A. Proximal convoluted tubule  
 B. Descending limb of loop of Henle  
 C. Ascending limb of loop of Henle  
 D. Collecting duct
33. Which layer of the heart wall is responsible for contraction?  
 A. Epicardium  
 B. Pericardium  
 C. Myocardium  
 D. Endocardium
34. Which anatomical landmark is used to locate the site for lumbar puncture in adults?  
 A. Tuffier's line at L4  
 B. Spinous process of T12  
 C. Iliac crest at L2  
 D. Sacral promontory
35. Which prefix “peri-” in pericardium means:  
 36. CPT code for ACEi/ ARB not prescribed due to allergy of Lisinopril drug  
 37. The prefix “hypo-” in hypoglycemia means:  
 38. Description for G0044 CPT Code?  
 39. COPD – Abbreviation  
 40. CAD – Abbreviation  
 41. Under 2026 CMS-HCC guidelines, when must chronic conditions be reported to impact RAF?  
 A. Once in a lifetime  
 B. Every 3 years  
 C. Only during hospital admissions  
 D. At least once every calendar year
42. Which neurological condition ICD-10-CM code maps to an HCC?  
 A. G20 – Parkinson's disease  
 B. G43.909 – Migraine, unspecified  
 C. R42 – Dizziness  
 D. Z86.69 – History of nervous system disease
43. The suffix “-osis” in nephrosis refers to:  
 44. Which structure passes through the foramen ovale?  
 A. Facial nerve  
 B. Mandibular nerve  
 C. Maxillary nerve  
 D. Glossopharyngeal nerve
45. Hyperthyroidism exclusion comes under which MIPS measure and its QID no?

#### **46. Sample HCC Chart 1**

**Patient Name:** John Smith  
**DOB:** 05/12/1960  
**Sex:** Male  
**Date of Service:** 01/05/2026  
**Provider:** Dr. Brown

#### **Medical History / Active Conditions**

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Type 2 Diabetes with CKD stage 3	E11.22	HCC 18	Evaluated & Treated
Chronic Systolic Heart Failure	I50.22	HCC 85	Monitored & Treated
COPD	J44.9	HCC 111	Assessed & Treated
Hypertension	I10	HCC 108	Evaluated

#### **Questions**

- Which diagnoses in this chart are HCC reportable?
- What ICD-10-CM code is assigned for CKD stage 3 in this patient?

#### **47. Sample HCC Chart 2**

**Patient Name:** Mary Johnson  
**DOB:** 07/22/1958  
**Sex:** Female  
**Date of Service:** 02/10/2026  
**Provider:** Dr. Allen

#### **Medical History / Active Conditions**

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Diabetes Type 2 with CKD stage 4	E11.24	HCC 18	Evaluated & Treated

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Chronic Obstructive Pulmonary Disease	J44.9	HCC 111	Monitored & Treated
Chronic Systolic Heart Failure	I50.22	HCC 85	Assessed & Treated
Hyperlipidemia	E78.5	Not HCC	Evaluated

### Questions

1. Does hyperlipidemia contribute to the patient's RAF score?
2. Which MEAT criteria are documented for COPD in this chart?

## 48. Sample HCC Chart 3

**Patient Name:** Robert Lee  
**DOB:** 11/08/1972

**Sex:** Male  
**Date of Service:** 03/18/2026  
**Provider:** Dr. Patel

### Medical History / Active Conditions

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Atherosclerotic Heart Disease with Angina	I25.110	HCC 86	Assessed & Treated
Chronic Kidney Disease stage 2	N18.2	HCC 18	Evaluated & Monitored
COPD	J44.0	HCC 111	Evaluated & Treated
Hypertension	I10	HCC 108	Monitored

### Questions

1. Which HCC code corresponds to Atherosclerotic Heart Disease with Angina?
2. What lab or documentation would support coding CKD stage 2?

## 49. Sample HCC Chart 4

**Patient Name:** Susan Taylor  
**DOB:** 09/15/1965  
**Sex:** Female  
**Date of Service:** 04/12/2026  
**Provider:** Dr. Gupta

### Medical History / Active Conditions

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Chronic Heart Failure	I50.32	HCC 85	Monitored & Treated
Diabetes Type 2 with CKD stage 3	E11.22	HCC 18	Evaluated & Treated
COPD	J44.9	HCC 111	Assessed & Treated
Asthma	J45.909	Not HCC	Evaluated

### Questions

1. Which conditions in this chart are HCC eligible?
2. Which condition would not impact the RAF score?

## 50. Sample HCC Chart 5

**Patient Name:** Michael Davis  
**DOB:** 01/30/1955  
**Sex:** Male  
**Date of Service:** 05/20/2026  
**Provider:** Dr. Kim

### Medical History / Active Conditions

<b>Diagnosis</b>	<b>ICD-10-CM Code</b>	<b>HCC Code</b>	<b>MEAT Documentation</b>
Type 2 Diabetes with CKD stage 4	E11.24	HCC 18	Evaluated & Treated
Chronic Systolic Heart Failure	I50.22	HCC 85	Monitored & Treated
Peripheral Vascular Disease	I73.9	HCC 108	Assessed & Treated
Hypertension	I10	HCC 108	Evaluated

### Questions

1. Which diagnoses contribute to the patient's RAF score?
2. What MEAT documentation supports coding Peripheral Vascular Disease?
